

# What's my motorcycle worth?

Just like anything, the answer is — it depends. Unlike cars, bikes can be tricked out with chrome, new pipes, etc., significantly increasing their value. Here's a worksheet to help you set a good price. Please note that any information you enter cannot be saved, so when you're done, PRINT a copy to keep.

**STEP 1: Start with the value of the bike itself**

**NADA Guides Value**      Go to [nadaguides.com](http://nadaguides.com) and find the value of your bike without all the custom parts. \$ \_\_\_\_\_

**STEP 2: Determine the value of all of your custom parts and accessories**

CATEGORY	DESCRIPTION	WHAT I HAVE	WHAT I BOUGHT IT FOR	WHAT IT'S WORTH NOW
